Hi Dahnish,

Good news! When do you anticipate that the FRN will be published? Considering the fact that most of candidates seem to be available, not sure we need to update the list of candidates.

Thanks,

Tracey

Hi Dahnish,

We have already started to inquire about the candidates availability for September & October based on the FRN likely being published around 7/24. So far four candidates have responded and they are still available for that timeframe.

Thanks,
Tracey

OK thanks Tracey! I figured this was the case. I've been reiterating the delays are making this logistically challenging to plan the review itself.

Can I ask that maybe you wait to follow up until next week? I suspect we won't be able to post anything until at least the following week.

Subject: RE: PBPK Modeling for Chloroprene

Hi Dahnish,

We had been tentatively holding the week of 9/21-25 for the virtual public meeting, and had the key reviewers available. We have been standing by for the past week or two ready to write to the reviewers as soon as the FR was published to inform them and ask them to hold that week for the meeting. With the FR likely to be published around 7/20-24, and the public comment period to run to around 8/24, that will not allow the reviewers enough time to complete their premeeting reviews for a meeting during the week of 9/21-25. We'll now have to inquire again about their availability into the first few weeks of October.

Thanks,
Tracey

Subject: RE: PBPK Modeling for Chloroprene

Hi Tracey/all – Just wanted to provide an update, there was another round of back and forth with Denka on the documents for the peer review. This has unfortunately slowed us down again. There is a check-in meeting on Monday with senior management ORD on Monday. I'm hoping for a better sense of when I can push the FRN forward for posting by then.

Besides the schedule, are there any other implications to consider with the delayed release? Do we need to circle back with the candidates before posting the FRN? Just wanted to check.

Thanks!

Hi Dahnish,

Thanks for the update and we're keeping an eye out for the FR. We'll be waiting for comments on the candidate reviewers and will likely look to select the final nine reviewers around the end of July, at which time we will get the premeeting review underway. Based on availability information from the candidates, we're still looking at mid-late September for a meeting and we have a couple of windows of opportunity for the two-day meeting.

Hi Dahnish and Paul,

Thank you for the update. We have reviewed the revised FRN and have no additional comments/heartburn. The 30-day comment period will affect the timeline; i.e., initiate the review mid-late July and the meeting is now expected in mid-late Sept (see tentative timeline below). Also we will re-contact the pool of candidates today about this change and hope we don't lose anyone. It could change what names we publish in the FR. We hope to have updated info in the next day or two.

Also, we received the contract modification paperwork from Angie today; thanks!

Hi Tracey – There has been some structural revisions to the FRN that are worth you looking at. Our senior management had a few significant comments:

Ex. 5 Deliberative Process (DP)

We submitted the FRN back to ORD senior management and are awaiting final approval. In the meantime, can you take a look at the revised FRN and let us know if there is any heartburn? I'm really hoping to get the final approval to move forward with the FRN by early next week.

Side note: I am working with Angie to get the modification awarded. I'm hoping you see the final paperwork go through by the end of the week.

Hi Dahnish and Paul,

Just checking in to see if you had any information on when the FRN will be published? I updated the pool of candidates this morning to inform them that their name, affiliation, and expertise would be published (date to be determined) and that we still anticipate beginning the review in early July, with a meeting to be scheduled for mid-late August. Also I didn't see a statement in the draft FRN on how long the comment period is for the list of candidates. Are we still considering 14 days?

Hope all is well,
Thanks!

<lwilliams@versar.com>

Subject: RE: Chloroprene Peer Review - Meeting to Discuss FRN & Timeline

Thanks for the update Tracey! I've attached the (hopefully) final versions of the FRN and the LoC documents to this email. I did replace the number "18" in the FRN with "candidates" since the pool might go higher than 18. Also, I know we haven't finalized the list of experts for the LoC document, but I'm ok with the text revisions you made. As you get more information on availability, we can update the list again.

Subject: RE: Chloroprene Peer Review - Meeting to Discuss FRN & Timeline

Hi David/Tracey/Laura – Thank you all for a productive meeting this morning. I've attached slightly revised versions of the chloroprene FRN and the LoC documents based on the conversation we had earlier today. I did add the list of names of the experts and their abbreviated expertise. We will likely need to triple check the names and expertise. Let me know how this looks and if you have any comments on this version.
